

THE
Courtyard
Now, You're HOME

A project by Green Park Residences

THE Courtyard

An extraordinary RESIDENTIAL DEVELOPMENT

The Courtyard is a prestigious and singular development. Nature and tradition harmoniously combine with modernism and elegance to offer a secure haven, surrounded by tranquil green spaces for you and your family to enjoy a quality lifestyle and create the memorable moments of your lives.

This visionary concept, by Green Park Residences, was influenced by the traditional, welcoming Cypriot courtyard model to create a contemporary equivalent, providing an ideal environment for the collective and individual well-being.

This innovative, private, gated community is home to six progressive apartment buildings with breathtaking views of Athalassa Forest and beyond. Meticulously designed and well-spaced apart, the residences are aesthetically positioned in ten thousand square metres of elevated, prime real estate in Dasoupolis, Nicosia. Set on the development's perimeter, all the buildings overlook a thriving central courtyard of two and a half thousand square meters, further complemented by extensive lush gardens.

Every element of The Courtyard's grounds and residences has been thoughtfully planned and designed to maximise its use for each resident's lifestyle preference.

A fully fenced perimeter, supervised main entrance and underground parking guarantee privacy and security. Landscaped evergreen gardens, shaded walkways and cooling water features imbue well-being. For peace of mind, residents can sit and relax under the Jacaranda trees that shade the squares or enjoy quiet workspaces. They can socialise and mingle with friends on benches scattered throughout the gardens and make the most of the leisure facilities, such as the custom-built exercise deck or the 350m running track that encircles the grounds. Children are safe to play and explore within the Courtyard's car-free zone and in the designated gated playground. Outdoor barbecue space and dining areas offer the chance to keep up with the beautiful culinary and cultural traditions of Cyprus.

The Courtyard is yours to enjoy!

ENJOY SECURITY

ENJOY WELL-BEING

...PEACE

YOUR NEIGHBOURHOOD

Well Connected

In the heart of Dasoupolis, The Courtyard takes centre stage in a peaceful, attractive neighbourhood that keeps you conveniently connected to Nicosia's city centre and offers fast access to the Nicosia highway and other major routes. Within walking distance, you will find cafes, local shopping, amenities and public transport. Reputable private and state schools, hospitals, malls, and the Athalassa National Park are all on your doorstep.

Just Around the Corner

Alpha Mega Supermarket, Aretaeio Hospital, The Falcon Private School, The Olympic Committee Building, The Church of Apostolos Andreas, The Cyprus Handicraft Centre

Just Under 8 minutes by Car

The Mall of Cyprus, Ikea, Nicosia General Hospital, Athalassa National Forest Park.

THE RESIDENCES

Excellence in every little detail

The Courtyard houses sixty six elegant, spacious apartments of distinctive architecture and cutting-edge interior design.

Each building consists of six storeys; one building houses entire floor apartments whereas the other buildings house only two apartments per floor. Private roof terraces for the top floors of the three-bedroom, four-bedroom and full-floor apartments offer generous extra living space. All ground floor apartments have the added benefit of private, sizeable gardens.

The buildings' appealing design ensures that each apartment is fully independent with no shared walls, and that each apartment has three clear sides, offering unobstructed light, ventilation, and views. This perceptive layout guarantees maximum privacy for each apartment. As an added feature, each building is named after a different local tree that adorns each façade, encapsulating Cyprus' natural flora and Mediterranean feel.

TECHNICAL SPECIFICATIONS

CONCRETE STRUCTURE

Anti-Seismic Strength reinforced concrete.

EXTERNAL WALLS

All external walls have 8cm of thermal and sound insulation and brick with a thickness of 25cm.

All walls have a high level of energy efficiency (u-value = 0.321w/m²k)

FLOORS

The bedrooms and living rooms are finished with high-quality wood parquet.*

The balconies are finished with high-quality designer porcelain tiles.

CEILINGS

False ceilings in the kitchen, bathrooms, toilet and corridor
(optional for two-bedroom apartments).

DOORS AND WINDOWS

The main entrance door is anti-burglary and fireproof with a security lock.

All external windows and doors leading to balconies are high performance sliding thermal aluminium frames with double glazing.

All bathrooms have tilt and turn windows for natural ventilation and easy cleaning
(except guest toilets)

Sliding screens installed on the balconies for increased sun shading and privacy.

WARDROBES AND KITCHEN CUPBOARDS

The kitchens have high-quality stain resistant granite worktops.*

All wardrobes are full height floor to ceiling, maximising storage space.

KITCHEN

An open plan kitchen for 2, 3 and 4-bedroom apartments with the option of having it as a separate room.

A closed plan kitchen in the whole floor 5-bedroom apartments with an option for an open plan kitchen if desired.

All apartments are equipped with an extra washing room except for the 2-bedroom units.

SANITARY WARE AND MIXERS

Imported sanitary ware of the highest quality, complete with accessories, are provided.

Toilets are wall-mounted with concealed systems.

Stainless steel sinks for the kitchens, complete with accessories.*

Glazed cubicles and tempered glass splash screen are used for showers.

Full height premium ceramic walls in toilets.*

WATER SUPPLY

A fully pressurised system for hot and cold water.

Electric heat pump for additional hot water supply.

ELECTRICAL INSTALLATIONS

The entrance door is controlled and monitored with a video phone entry system.

TV access points in the living areas and all bedrooms. Provisions for telephone lines and fibre optic internet is provided throughout the apartments.

Provisions for home automation system.

Underfloor water heating, with temperature control systems in different areas of the apartments.

Car charging points

AIR CONDITIONING

Air conditioning units are provided and installed.

Concealed A/C units in the reception area and wall mounted units in bedrooms.*

ENERGY PERFORMANCE

EPC Certificate: all buildings comply with local energy regulations according to the European standard performance.

The buildings have an A rating certificate with high energy saving and low CO² emissions.

The development includes the installation of photovoltaics on rooftops.

ELEVATORS

Access to all floors via state-of-the-art elevators.

The elevators have access to all building rooftops except for the 2-bedroom buildings.

SAFETY AND SECURITY

Entrance doors to the apartments and all doors leading to common areas are fireproof to the standards of the Cyprus Fire Department.

Fire alarms in all buildings' common areas

A centralised camera system (CCTV) is installed to protect the entrances of the development.

Provisions for burglary and fire alarms in all flats.

Mechanical installations are housed outside apartments for ease of access and decreased fire hazard.

Multiple fire exits from the underground parking in case of emergency.

An external wall fences the entire property to prohibit unauthorised access and provide security for the residents and their families.

All common areas are equipped with fire extinguishers.

LANDSCAPING AND GARDENS

The ground floor offers landscaped gardens with a large central square accessed by all buildings.

Fully automated irrigation system for reduced water waste.

Solar-powered lamp poles providing ambient lighting at night.

A dedicated play area for children.

CAR PARKING AREA

Two underground parking spaces are allotted per apartment.

Two-bedroom apartments are provided with one parking space and an option to acquire a second.

Dedicated accessible parking space close to the elevator, servicing each building on the underground level.

Colour coded parking for ease of access to each building.

Multiple visitor parking spaces on the ground floor are available, close to the development's entrance.

Provisions for electric car charging for each parking spot.

ENTRANCE

The entrance of the development offers separate pedestrian, vehicle access and a dedicated concierge area.

The entrance is gated on both the vehicle and pedestrian sides.

STORAGE SPACE

Each flat has a spacious and dedicated storage space at the underground level.

Additional motorbike and bicycle parking available in the underground.

OPTIONS

() more options available.*

The kitchen of all flats can be either open plan or closed.

Burglary and fire alarm systems can be installed in apartments.

A wide choice of flooring materials for the bedrooms and internal living areas will be available.

Wardrobes and kitchen cupboards can be customised to suit each the owner's preference.

A choice of either a shower, bathtub or jacuzzi can be made for installation in most bathrooms.

The master bathrooms for all three and four bedroom apartments can include both a bathtub and a shower.

There is also an option to install concealed air conditioning units in bedrooms.

Potential homeowners will be offered several excellent choices of internal layouts and finishing materials.
